

A beautifully simple way to control your whole home.

Plan lighting, entertainment, climate, security, networking and access as one considered system - whether you are building a new home or renovating an existing property.

Designed, supplied, installed and supported by
Riverside Audio Visual.

Every project begins with a conversation, a room survey and a clear specification. We coordinate with homeowners, architects, interior designers, builders and electricians from first fix through commissioning.

What we can integrate

A practical guide to the systems and decisions we can plan with you.

Lighting and scenes	Control4, Rako and Lutron lighting; engraved keypads; dimming; tunable white and Vibrant linear lighting; automated scenes and presence control.
Home cinema	Dedicated cinema rooms, media walls, concealed projectors, motorised screens, acoustic design, calibration and one-touch cinema scenes.
Multiroom audio and TV	Music and television in living spaces, kitchens, bedrooms, bathrooms, gardens and terraces with discreet ceiling, in-wall or freestanding speakers.
Security and access	Luma and ClareVision CCTV, recording, smart detection, intercoms, door stations and remote notifications.
Reliable networking	Professionally designed wired and wireless networks for streaming, automation, work, security and guest access.
Plans and schedules	Send floor plans, lighting circuit counts, room requirements, architect and designer details, and your schedule of works for an accurate quotation.

Ready to plan your project?

Send your floor plans and schedule of works to sales@riversideav.co.uk or call 0208 159 4443 to arrange a design consultation.
